DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 18 and 20-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment made to claim 18 now requires that the bottom-most portion of the grass guide be in a mounting position just above *and behind* the lower ends of the plurality of blades, however, both the drawings and the written description fail to provide support for such a limitation. Specifically, as shown in the drawings and seen below, the bottom-most portion of the grass guide falls at, *and not behind*, the lower ends of the plurality of blades.

Furthermore, the Specification appears to teach away from the new limitation on page 8, lines 3-5. The Specification states that the grass guide functions to bend and constrain the uncut grass in front of the cutting blades. It is unclear how the grass guide would bend the grass in front of the blades if it terminated behind the blades.

Because the it is unclear to the examiner what exactly is being claimed (the grass guide behind the blades as claimed or in front of the blades as originally disclosed), no art rejection was been provided and the application has not been further treated on the merits.

Response to Arguments

3. Applicant's arguments with respect to claims 18 and 20-36 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3671

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
